FOR IMMEDIATE RELEASE

August 22, 2006

**Conservative Unity
Wristband is now
available to the public.**

Minneapolis, MN – The anticipation is over. A Minneapolis based business; Conservatives UNITE is now offering its signature wristband to the public. Their product, the Conservative Unity Wristband symbolizes strength, unity, liberty, equality, leadership, and a determination to be proactive in government.

“The Republican party has run astray from their conservative principles,” says the company’s founder, Brian Bermel. “Republicans are divided over significant issues that face our country today; the growth of government, pork barrel spending, not ensuring permanent tax cuts, immigration, war on terrorism, and our country’s dependence on foreign oil.”

These issues represent a serious problem for Republicans. Both conservatives and Republicans need to reunite if they want to succeed in this upcoming congressional election. The Conservative Unity Wristband is the solution to these problems. Strength through unity. As President Reagan emphasized "Peace through strength," (military strength is a primary or necessary component of peace), strength through unity is the primary or necessary component to the success of a political party, and the success in an election.

With each sale, Conservatives Unite will donate 10% of the proceeds to the Young America’s Foundation. The Young America’s Foundation is a youth outreach organization dedicated to educating America’s youth on conservative ideas, and the Reagan principles. The Young America’s Foundation has also preserved the former residence of President Reagan, Rancho del Cielo. The former “Western White House” serves as a living monument to President Reagan’s legacy, and a place for learning, encouragement, and inspiration for America’s youth.

Conservative Unity Wristbands can be purchased at www.Conservatives-Unite.com.
